Bill Kidd League 2 v 4 Mitchell, Scott v Graham, Sandy 9 - 3 6 - 1

well deserved victory for Scott & his rink, aided & abetted by excellent draws, tap ups, take outs & guards. It was pleasing to see Graeme play well at lead. A 4 at the 2nd end gave Scott a 5 - 0 lead, but Sandy hit back with a 3 at the 3rd end to get back into the game. Alas this was his last end won with Scott scoring 4 singles, despite the efforts of his opponents.

# Substitutions

**Follow the existing guidelines for substitutions.** This functionality is just for recording substitutions and ensuring the correct players receive eMail notification of forthcoming fixtures

In this example Ian Baker has followed the substitution guidelines and arranged for Steve Jamieson to sub for him and has advised the skip of the change

## Recording substitutions

1. Select the match in which the substitute needs to be recorded. Click on the Match or Number (blue text) and Rink screen is displayed
2. Click on the down arrow in the Lead box and a drop down list of all players will be displayed. Select Steve Jamieson (the sub) from the list
3. In the **Substitute Information** box, input *SUBSTITUTE : Steve Jamieson subbing for Ian Baker* and click on **Save Details** button. The substitution is recorded.

## Notes:

- It is the responsibility of the player being substituted to record the details. Failing that, the skip can record the changes.
- Update the web site as soon as the substitution is confirmed.
- The term **(In Rink)** confirms that the substitution is within the rink and the substitute can play in the nominated position. Where a player out of rink is used as a sub then use the term **(Out of Rink)**. This indicates to the skip(s) that where appropriate the substitute should play in accordance with competition rules, i.e. usually at lead unless otherwise agreed between the skips, and not necessarily in the position as recorded on the website.
- Where, the competition is an internal league game and a sub is required for a skip, then a dedicated **Skip (sub)** box is displayed. Simply add the name of the sub, update the notes section as instructed above and select **Save Details** button. Do not change the **Skip:** box

1

The Rink screen displays a table for recording substitutions. The table has columns for Team/Skip, Sub Req, and Sub. The rows represent different positions: Skip (sub), Third, Second, and Lead. The Lead row shows 'Jamieson, Steve' selected in the Team/Skip column, with a checked 'Sub' box.
